

Sequence Diagram

Request represented by a solid arrow:

Response to a request represented by a dotted arrow:

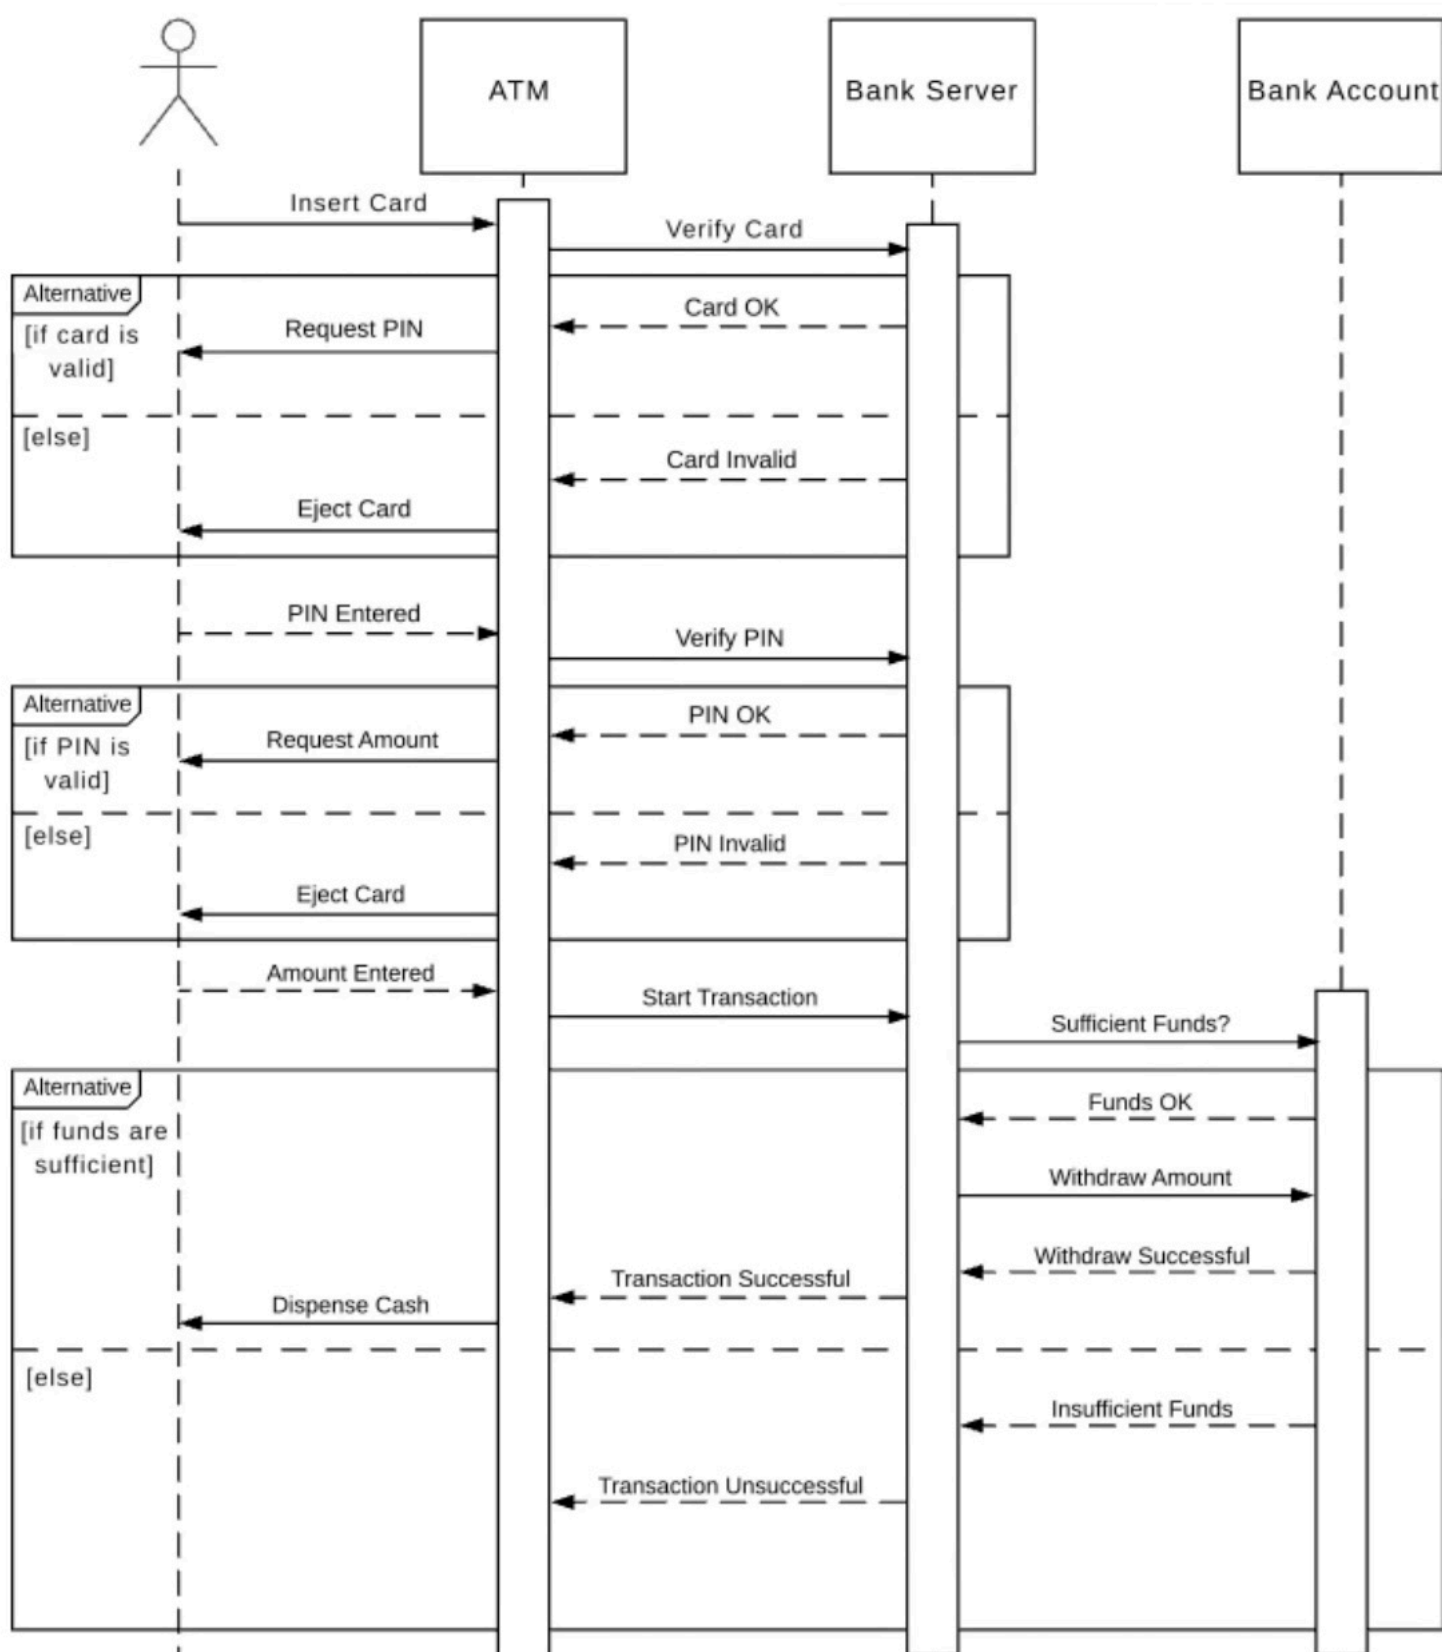

Activation time is represented by a small rectangle from first message to last.

Actors don't need activation boxes.

At top we have actors & objects (ATM machine)

Beneath them we have a dotted line representing their lifeline

In this step-by-step tutorial, we'll show you how to make a UML sequence diagram using Lucidchart. Sequence diagrams are a type of Unified Modeling Language (UML) diagram that shows interactions over time. They can map out com ...more

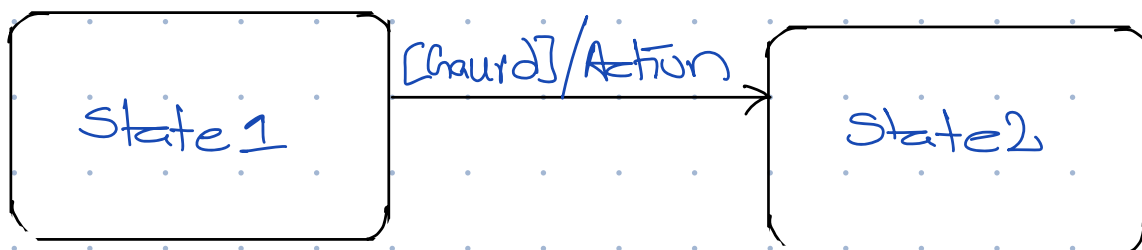

State Diagram

State:

Event triggers a change in state

NOTE:

Action happens
instantaneously

do takes time.

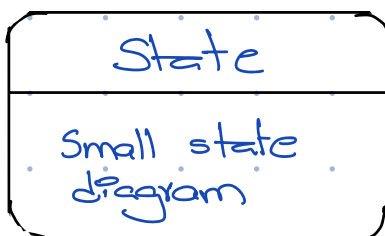

Start state

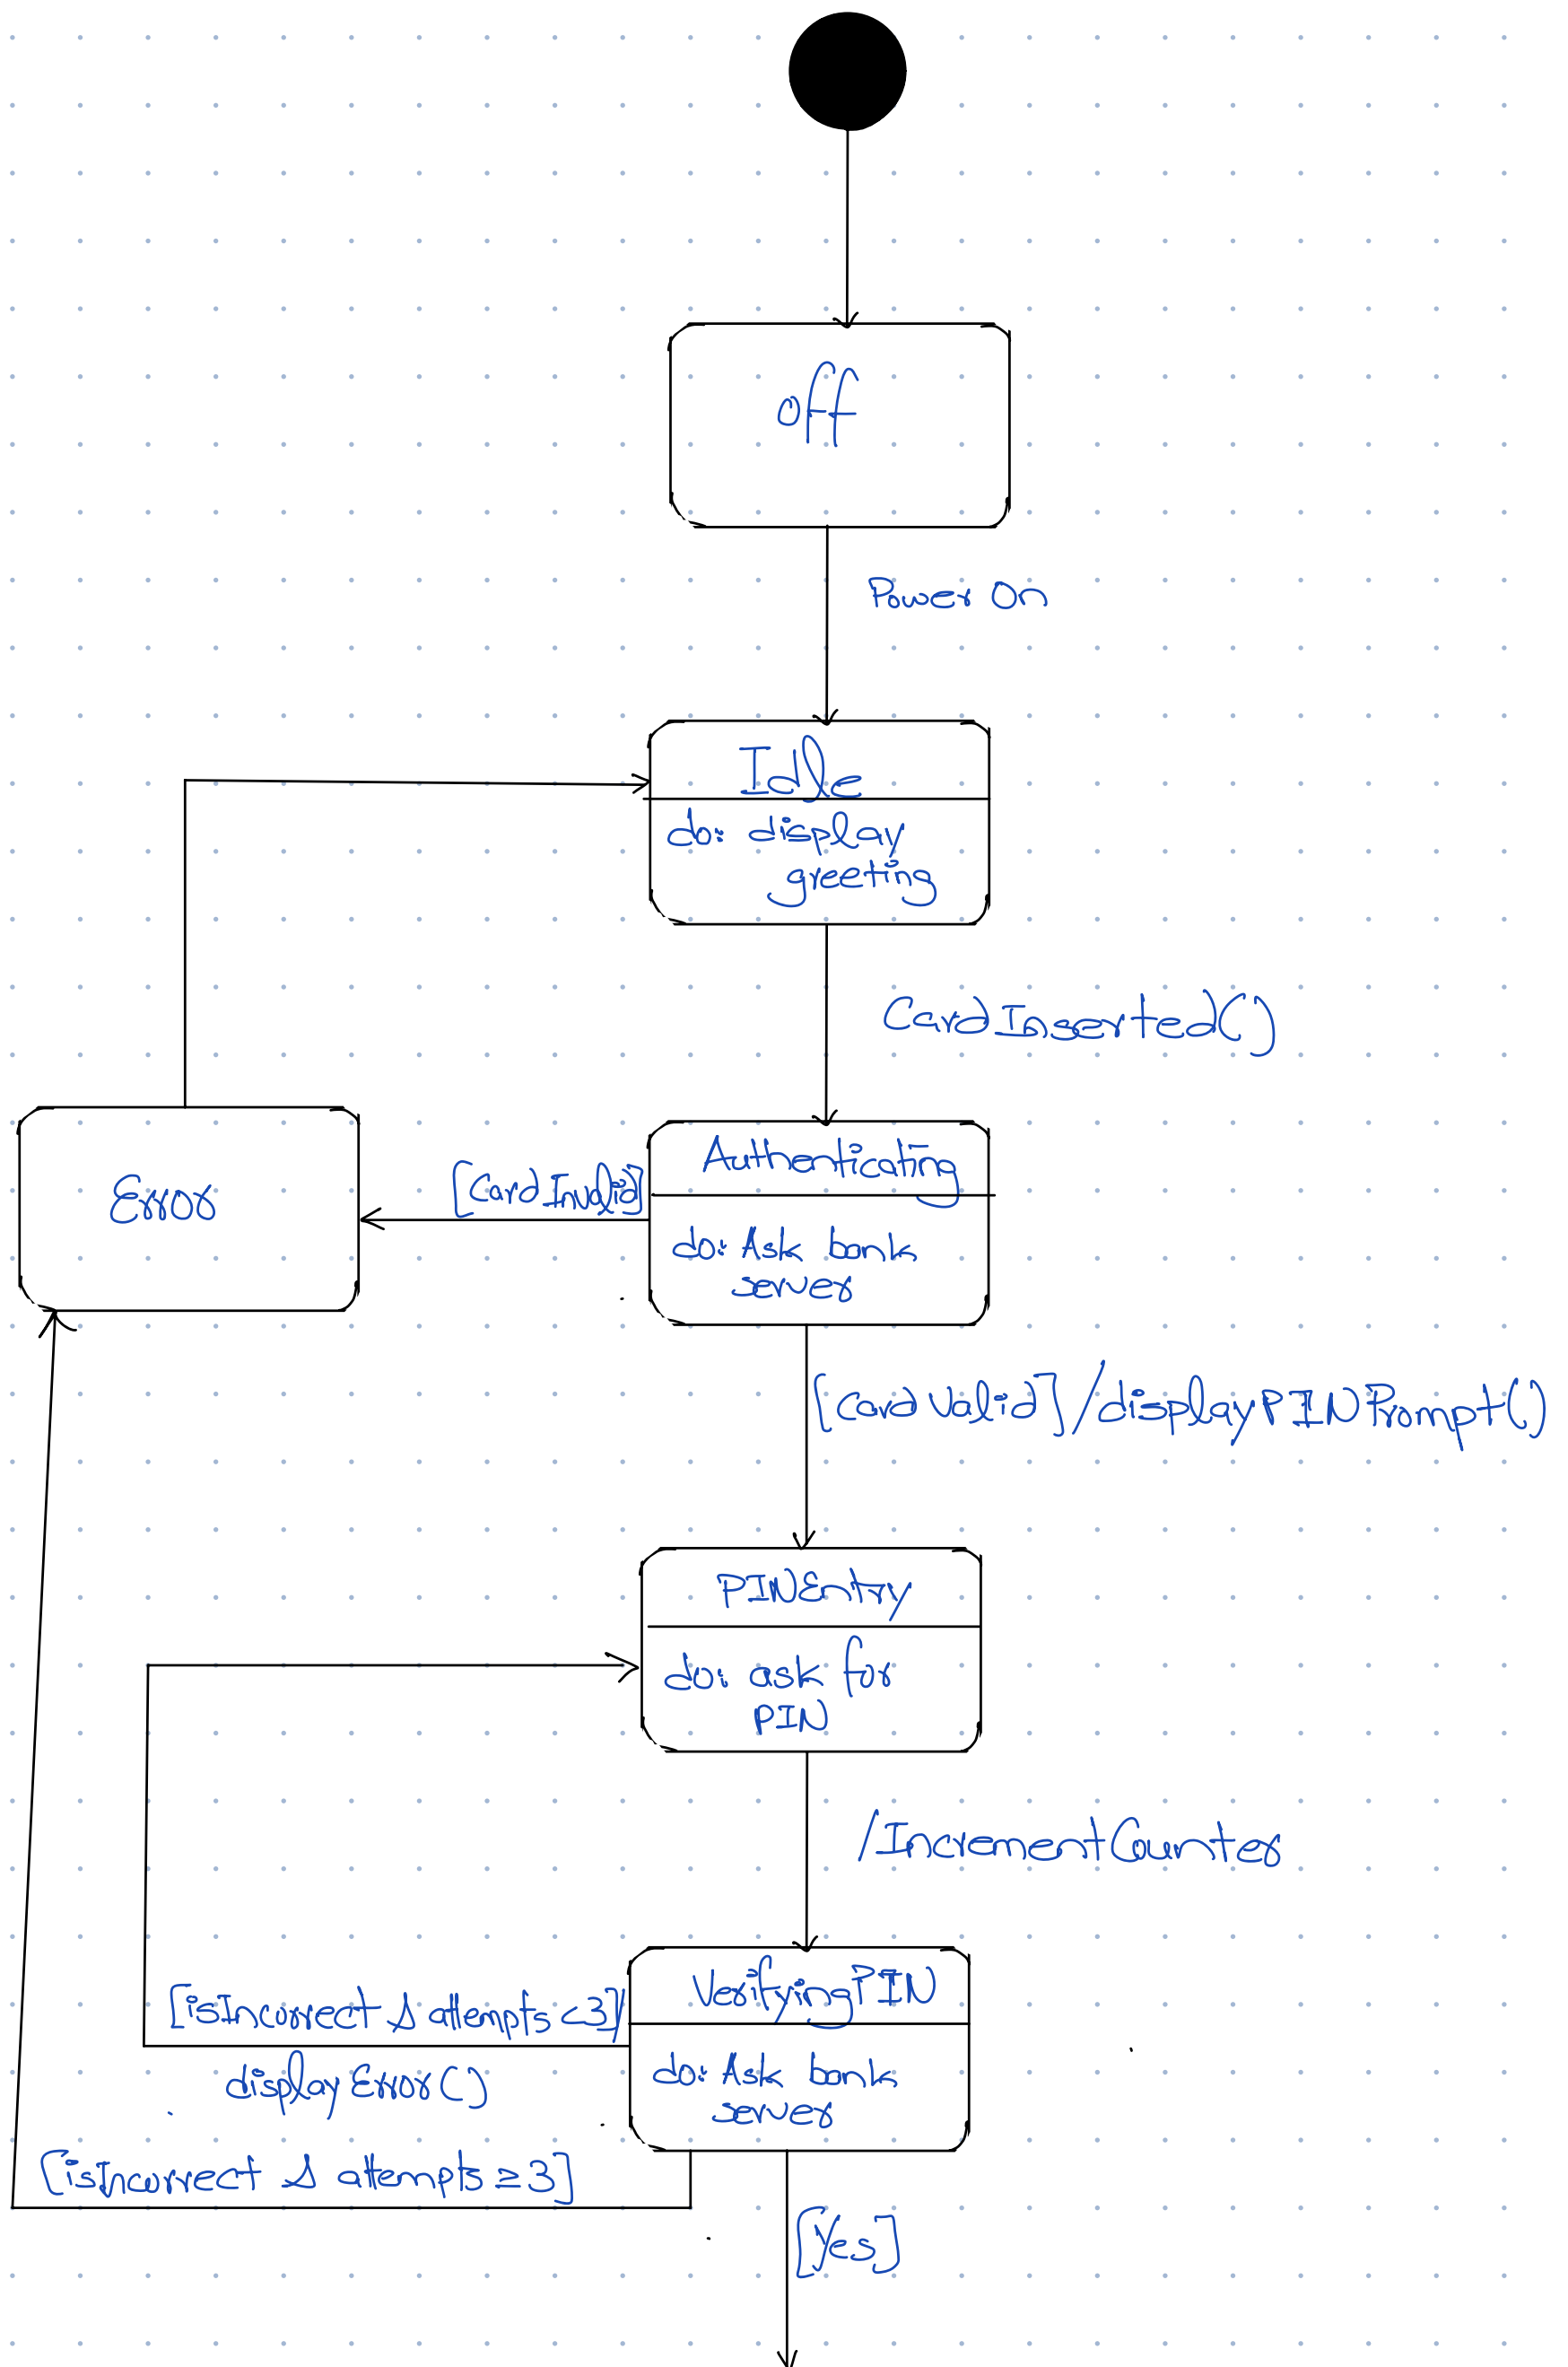

End state

Composite State

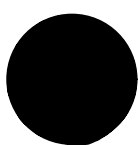

Example,

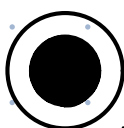

Activity Diagram

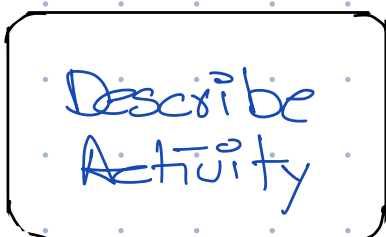

Start state

End state

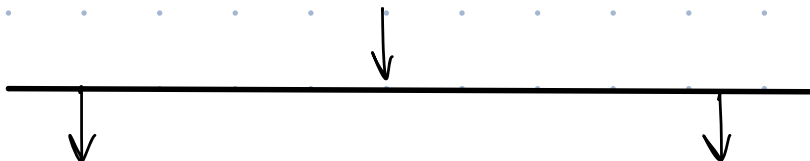

State:

Flow

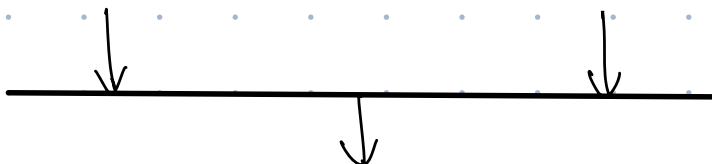

fork

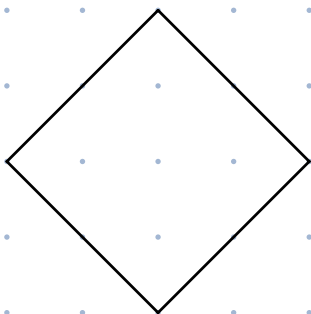

Support parallel
flow/
concurrent activity

Join

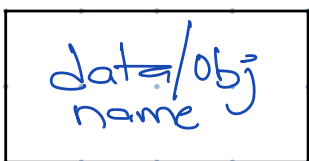

Acts as a barrier

Decision:

Data/objects

Example,

Uses

ATM

Bank Server
